Commissioner Rolling read the Rate Statement.

II. STATUS OF RESOLUTIONS

The Mayor has not returned Resolutions #18 through #31. All resolutions are in full force and effect.

III. ADOPTION/CORRECTION OF MINUTES

7A: The Minutes of the February 15, 2022, Regular Meeting was approved as on a motion made by Commissioner Shears, seconded by Commissioner Awe and carried on the call for the Board to vote.

IV. EOBWC EXECUTIVE DIRECTOR REPORT AND COMMITTEE REPORTS

Joe Tomashosky advised the Board that they had collections of \$1.915 million and billings of \$1.674 million. He stated that this was one of the lowest monthly billings for this time frame in the past 3 years. February's collection rate for East Orange was 114.4% compared to January's of 79.6%. They collected more than they billed which gives the Board a positive number. The 52+ days past due account has increased by \$195,000 which shows that 57.1% of customer accounts receivable is greater than 52 days past due.

A lengthy discussion was then had with regards to the length of time the Board could give customers to make payments via a payment plan.

Tom Matich advised that last month Orange's usage was down to about 1/3 of what they would regularly take due to some mechanical issues. He spoke to them and the repairs have been completed so they are back up to pulling their regular normal amount. He stated that hopefully in the near future, they can pull from the pool of applicants to allow for the restaffing of some vacant positions to allow more functions to occur in-house. They received some information from the Fire Department about some fire hydrants those will be addressed prior to the replacement project.

Director Liu advised that they received approximately 15 resumes for the new hire. They will discuss the reviewing and hiring process in Executive Session. He then advised that Woodland Avenue project. The design and estimated construction cost is almost complete. Last month they finished the Lead Service notification to the customer and a lot of customers raised questions as to when the Board would be able to replace their service lines. He indicated that their response was they still had to wait for State guidance. They are working on the meter replacements. He would like to speed up the installation of the smart meters. He then spoke about the GIS and Hydrant installation resolutions that are being presented to the Board today.

Director Liu then advised the Board that they were going to have to go out to bid for the \$1.2 million-dollar Inflow/Infiltration study. The smoke test is going to be done either this week or next. He then spoke briefly about the 72-inch storm sewer at Springdale Avenue.

V. PRESENTATION

NONE

VI. UNFINISHED BUSINESS

Lawsuits – update in Executive Session

VII. NEW BUSINESS

Denis Murphy spoke briefly about Resolution 12H rejecting the bids received for the White Oak Ridge Pumping Station Disinfection System Conversion Project
